

SELF-SERVICE SMART LOCKERS FOR EVERYONE

INTRODUCING OX POINT

An open network of shared smart lockers and mailboxes OX POINT which brings a simple and secure way to deliver and send parcels 24 hours a day, 7 days a week, 365 days a year, simply anytime.

OX BOX lockers and mailboxes are available in many variants providing a solution for everyone.

Currently, we operate a nationwide shared network of lockers **OX BOX Public** which is expanding from 250 places to new locations and to small municipalities where there is no post office.

We also operate and develop a network of luggage storages **OX BOX Luggage** all around Czechia and abroad.

For businesses and enterprises, we offer smart solutions for self-service reception desk **OX BOX Office** or self-service lockers and storage boxes **OX BOX Locker**.

And for modern households ordering often on e-shops, we offer a unique private system of mailboxes **OX BOX Home**.

We are also preparing a network of shared mailboxes **OX BOX Resident** for residential buildings in cities and towns and a network of smart city stations **OX BOX Station**.

Choose what suits your needs the best!

OUR KEY ADVANTAGES

European company

Development and production take place in the heart of Europe, the Czech Republic. Strategic location minimizes logistic costs and ensures production flexibility.

Proprietary software

We are able to customize the product and the solution in accordance with your needs.

Premium quality

A fully automated production ensures premium quality of our products which are also suitable in variable climatic conditions.

Fast delivery

We have large production and storage capacities in the Czech Republic available. That guarantees fast delivery of products to our customers.

Modularity

Fully automated production ensures high quality of our products. Materials and finishes used are suitable for demanding outdoor conditions.

Professional services

Installation, monitoring, maintenance, service, SW integration, improvements, development, customer and technical support, 24/7 call center, etc.
